by Weathermatic®

SmartLink® CONNECT

High tech. Not high maintenance.

SmartLink puts everything you need to run a more productive and profitable irrigation division at your fingertips.

How it Works

Connect — Connects any Hunter® 2-wire controller to the SmartLink Aircard.

Aircard — Connects the controller and SmartLink app via secure and reliable cellular network.

SmartLink App — Access the SmartLink web app and mobile app to remotely manage your entire irrigation portfolio.

Total Equipment Protection

A SmartLink monthly service plan covers the complete lifetime cost of ownership for all Weathermatic products against:

- Technology obsolescence
- Lightning damage
- Physical and liquid damage
- Defects in materials
- Theft

SmartLink App Features:

- Remote portfolio management
- Global commands
- Inspection and proposal tools
- Insights dashboard
- Asset mapping
- Notifications and alerts
- Flow sensing
- Seamless integrations
